Time To Reconnect.

Location: Oakville, ON Canada Retailer: Backyard Retreat

Start Your Day Off Right

Imagine how much better your day will start when you slip into your own Hydropool Self-Cleaning Hot Tub for a few minutes each morning. Your circulation will improve, muscles will relax and feel better. Your state of mind will be enhanced and you will be better prepared to face your day at work or a round of golf.

Relieve Stress and Relax

When you're relaxing, you enjoy life more. It is easier to converse, share intimacies, smile and laugh. You'll look forward to your times in your hot tub. Hydropool Self-Cleaning Hot Tubs are also great for entertaining. Your guests will leave with fond memories of the time spent with you in your hot tub.

Soothe Those Tired and Aching Muscles

The heat of your Hydropool Self-Cleaning Hot Tub results in collagen tissue becoming more flexible, benefiting many people with arthritic symptoms. Doctors have advised people with arthritis that soaking in warm water several times a day relaxes muscles and joints and helps induce restful sleep. The resulting

stress and muscle tension relief has also led many migraine sufferers to claim that hot tub use reduces the frequency and severity of their headaches.

Sleep Better

The heat improves blood circulation, provides tension relief, and quicker lactic acid removal creating a comforting state of relaxation and tranquility, assisting you to sleep better at night.

Time To Relax.

Let's face it, life gets busier and more demanding each day...

It seems you never have time to rest. Imagine your own personal get-a-way, a place where you can relax, meditate, and enjoy quiet times... by yourself, with family or with friends. Feel the stress and tension seep out of your body as you sit back, stretch out, and let the combination of warm water, pulsating jets, and the natural buoyancy of the water do its magic.

Indoors or out, a Hydropool Self-Cleaning Hot Tub will create more time for what matters. Whether in a corner of your home, in a solarium, conservatory or installed in your deck or backyard, a Hydropool Self-Cleaning Hot Tub will "rekindle" romance and relationships with family and friends.

"We call our hot tub *Hydropool Heaven* after a long hard day at the office it's great coming home to our little piece of heaven."

Brian & Wendy Chin Quan,
Proud Owner's of a Hydropool Hot Tub

The Science of Immersion.

The **Zone Logic** behind Hydropool Zone Therapy is personalized usage of the hot tub to help you benefit from a general sense of well-being. We are all unique individuals and our genetic make-up and lifestyles all play a defining role in our sensitivity to the release of various tensions.

There are four elements that make-up each zone...

1) TYPE OF JETS

- The type of jet is crucial to a proper massage.
- Our E55 jet is designed purposely for a deep tissue massage and our E40 Jet is designed for a gentle massage.

2) JET PLACEMENT

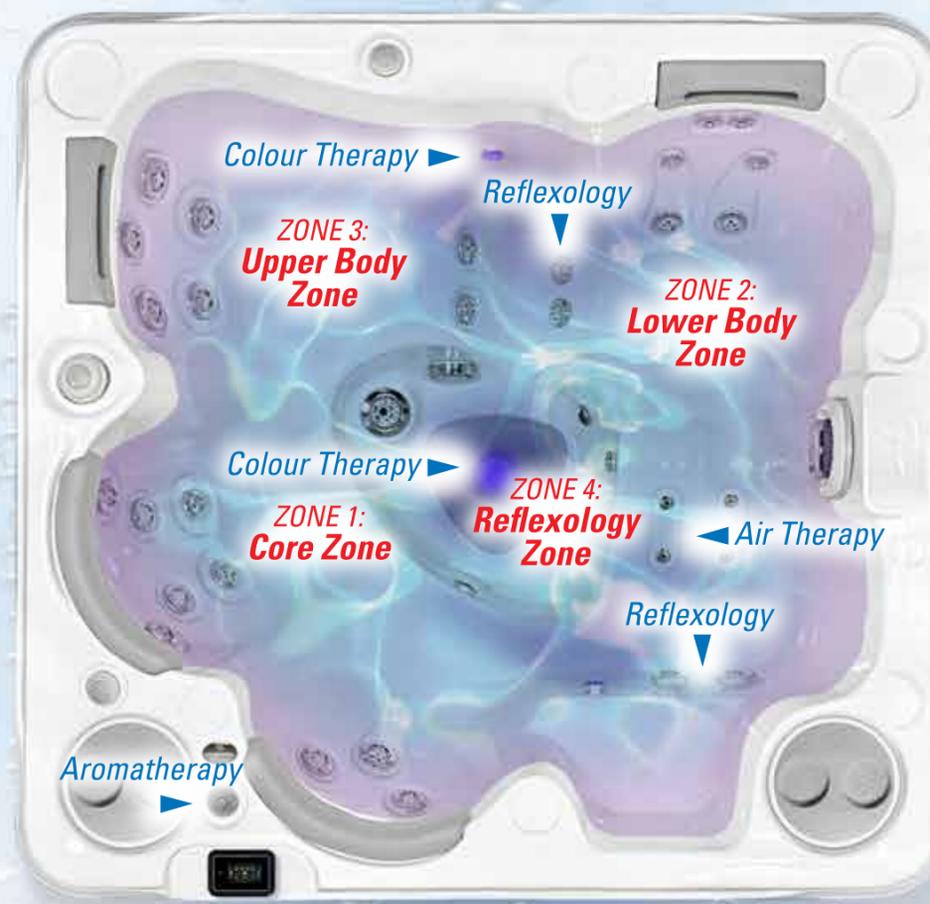

- Our hydrotherapy jets are specifically designed for each zone so that the superior benefits of hydrotherapy are achieved.
- Different jet patterns are designed to work different muscle groups.

3) SEATING... DESIGNED AROUND YOU

- Designed to work with your body's natural structure and functions to provide maximum comfort and functionality.
- Our ergonomic seats support the skeletal structure so that the muscular system does not have to; it removes stress from muscles and joints so that the body relaxes.

4) DURATION IN SEAT

- The last component of Zone Therapy is the duration of time that a person spends in each seat (Zone) of the hot tub.
- Duration in seat combined with the sequence of seats is critical to the performance of the Zone Therapy.

Through our solid understanding of **Zone Hydrotherapy** and ergonomics of the human body, Hydropool has taken the science of immersion to the next level. This constant innovation has created a line of hot tubs that allows them to interact with the human body in the most natural and effective way possible with the introduction of Zone Therapy.

ZONE 1: CORE ZONE ACTIVATION OF THE PARAVERTEBRAL MUSCLES

- Vertebral fatigue contributes to headaches.
- Release tension in the Dorsal muscles.

ZONE 2: LOWER BODY ZONE ACTIVATION OF LEG & LUMBAR MUSCLES

- Promotes improved circulation in the lower part of the body.
- Allows for venous return and lighten legs.

ZONE 3: UPPER BODY ZONE ACTIVATION OF UPPER BACK, NECK & SHOULDER MUSCLES

- Eliminate tension in Trapezoid muscles and neck.
- Releases tensions in Solar Plexus area.

ZONE 4: REFLEXOLOGY ZONE ACTIVATION OF FOOT ARCH MUSCLES

- Deeply massage the small venous areas in your foot arch.
- Your feet take the brunt of most sports.

The Evolution of Hydropool HydroTherapy and How Our Zone Therapy Came To Be.

Hydropool's Exclusive Self-Cleaning Technology.

The world's easiest hot tub to maintain, the Self-Cleaning System cleanses 100% of the water in only 15 minutes, that's an incredible 8 times in 2 hours!

1) HydroClean Filtration Jets OPTIMIZED SURFACE FILTRATION:

- The design of our seating and the strategically placed jets create a continuous flow of water pushing all floating debris towards the high flow skimmer.
- Boosts the efficiency of our Self-Cleaning System.

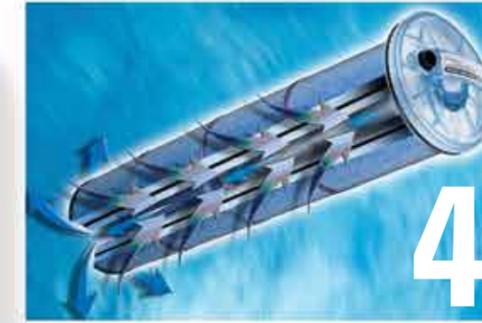

2) High Flow Skimmer and Pre-Filter CLEANS ACROSS THE SURFACE:

- Removes floating debris, oils and prevents larger debris from clogging the pump and heater.
- Increases filtration.
- Moves debris into the Pre-Filter and extends Micro-Filter cleaning cycles.

3) HydroClean Floor Vacuum CLEANS ACROSS THE FLOOR:

- No need to vacuum the hot tub.
- Watercare products are more effectively circulated.
- Removes heavy contamination (such as dirt & grit).

4) Pressurized Micro-Filtration CLEANS 100% OF THE WATER EVERY 15 MINUTES:

- HydroClean Filter with for easy cleaning.
- Results in extended cleaning cycles.
- Easy access while out of contact and sight from bathers.
- No odor escapes during hot tub use.

5) Customize Your Watercare System WORRY-FREE AND CONVENIENT:

- Hydropool PureWater System.
- PurEssence WaterCare System.
- EZcare WaterCare System.
- Automatic Chemical Feeder.

6) Self-Clean Indicator ALWAYS ON THE JOB:

- The Worry-Free indicator indicates the Self-Clean and EcoHeat Exchange Systems are both active.
- Reassures your family's safety and protection.

The PureWater System:

- Is the most efficient water purification system in the world.
- Combines the Self-Cleaning technology with UV and Ozone Water treatments.
- Eliminating 99% of all contaminants.

Did You Know...

With the Quick Drain System there is:

- No Shop-Vac or Sump pump needed.
- Pumps the hot tub water out at any distance or any grade.
- Saves time and the hassle associated with hot tub maintenance.

We have always been committed to creating time for what matters... to you.

Create Time For What Matters With... The World's Only Self-Cleaning PureWater Hot Tub.

If getting into a hot tub that is clean and safe every time is important to you, Hydropool is now offering the most efficient water purification system in the world. When combined with the Self-Cleaning hot tub technology this makes treating your water automatic.

1) Purify - Ozone

- Water passes through the patented Micro Cell.
- Treats the hot tub water with Ozone (Nature's Oxidizer).
- This rapid oxidation reduces chemical usage by 50%.

2) Exposure to UV Light

- The Ozone treated water then passes through a UV Chamber exposing it to a high volume of UV light.

3) Advanced Purification (1 + 1 = 3)

- This combination of UV and Ozone creates the Hydropool PureWater System.
- By creating active oxygen it removes any Calcium or Biofilm inside pipes.

4) Reduces...

- Shocking your hot tub water.
- Our PureWater System eliminates 99% of all contaminants.

5) Automatic...

- PureWater System is on when your hot tub is circulating.
- The Quick Diagnostics shows everything is in working order.

Just sit back and let the Hydropool
PureWater System do its work.

Exclusive HydroWise Thermal Shield Technology!

Our innovative HydroWise Thermal Shield Energy Efficient Insulation along with our superior 4 inch HydroWise Hard Cover keeps the heat in and the cold out. Combine this with the fact that our hot tubs are engineered to be the most energy efficient in the world, providing 100°F / 37°C ... for just pennies a day.

Did you know...

N.A.S.A. uses the same technology to protect its astronauts from the -270 degree cold in outer space that we use in our Thermal Shield Blankets.

1) Self-Clean Technology ENERGY EFFICIENT FILTRATION:

- Your HydroPool hot tub filters 100% of the water in only 15 minutes. This means the hot tub does not have to be operating as long to filter the same amount of water as other hot tubs.
- The most energy efficient filtration system in the world.

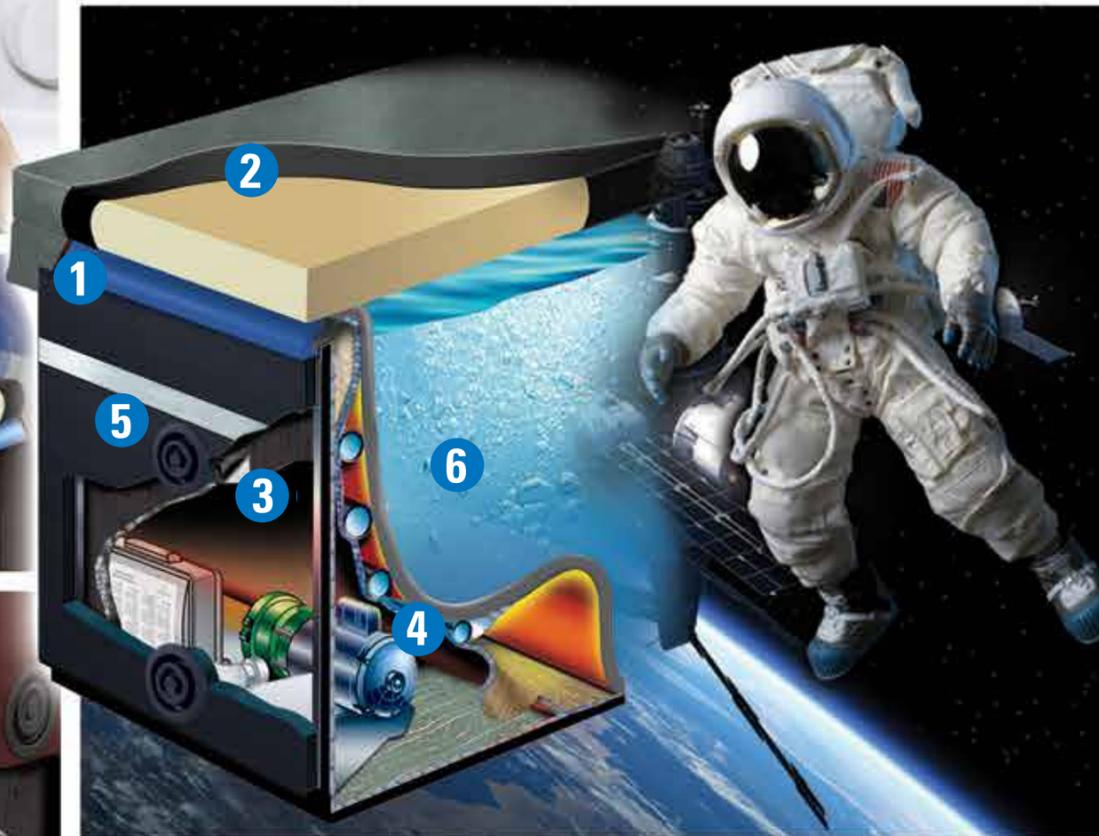

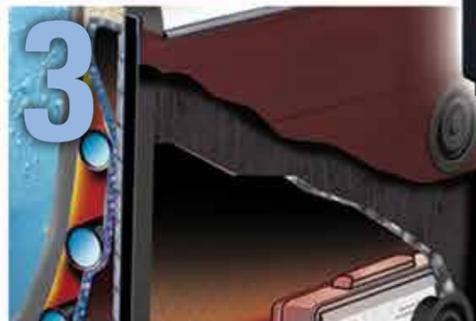

2) HydroWise Heat Shield Hardcover MADE FOR CANADIAN WINTERS:

- Heavy Duty tapered locking safety hardcover.
- Insulated baffle in the fold area.
- Locks the heat in and keeps the cold out.

3) Insulated Thermal Shield Blanket NASA INSPIRED TECHNOLOGY:

- Triple Thermal Shield Technology (pipes, cabinet and floor).
- Reflective foil side of the Thermal Shield reflects the heat back into the hot tub.
- Black side of the Thermal Shield and pipes is designed to absorb heat.

4) Low Amperage Evergreen Pump HIGH FLOW - LOW ENERGY PUMPS:

- Pumps that are engineered to produce high flow rates with low energy output.
- The HydroPool filtration pump is 26% more efficient than the competition.

5) EcoHeat Exchange Technology FULLY ADJUSTABLE VENTING:

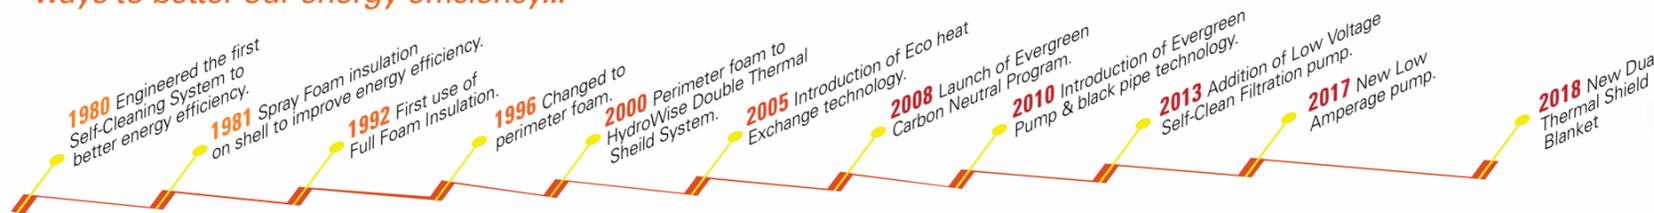

- Each pump creates 1.5 kw per hour of waste heat and our Triple Thermal Shield Blanket reflects that heat back into the hot tub cavity.
- HydroWise Thermal Vents maximize energy efficiency for any season and any climate.

6) Designed To Meet California Regulations SETTING THE STANDARD:

- Ranked in the top 3 in the world for stand-by wattage and energy efficiency.
- One of the first to be approved under the strict State of California Guidelines.

We have always been developing new ways to better our energy efficiency...

Time To Rejoice.

If Only It Could Clean The House, Too.

Find more time to relax in your soothing, bubbling hot tub that actually drains itself with the hot tub pump, this convenient Quick Drain System along with the science of the worry-free Hydrosport Self-Cleaning technology, you'll wish everything in life could be this easy.

The Hydropool Evergreen Commitment Enhances Your Life In More Ways Than Ever.

Hydropool's Evergreen Commitment allows our customers to rest comfortably knowing they are enjoying a premium hot tub or swim spa experience that will enhance the environment as well as their lives for years to come.

The World's First Carbon Neutral Hot Tubs and Swim Spas. Hydropool is committed to minimizing and neutralizing the carbon emissions from our manufacturing processes. Our lean manufacturing initiatives are constantly reducing the size of our carbon footprint. Our Tree Planting Initiative Program ensures that we support environmental projects that neutralize the carbon emissions in our manufacturing processes.

The World's First Approved Hot Tub and Swim Spa Manufacturer to the Standards of the state of California Hydropool is committed to be on the leading edge of developing energy efficient technologies. Our unique Self-Cleaning, and HydroWise Thermal Shield Systems enable us to meet the rigorous energy efficiency standards of the state of California.

Environmentally Responsible Printing Hydropool is committed to supporting responsibly managed forests in order to protect wildlife habitats, to ensure clean water and to keep our forests healthy for generations to come. Therefore, all of our corporately produced posters and brochures are printed by companies certified by the Forest Stewardship Council (FSC) on FSC approved paper.

Reduce, Reuse, Recycle Hydropool is committed to reducing the waste that we send to landfills. In addition to Lean Manufacturing initiatives which reduce and/or reuse waste materials we are also engaged in a corporate wide recycling program. Even the Everlast Cabinetry on our hot tubs and swim spas are recyclable.

Personalize Your Hydropool Self-Cleaning Hot Tub With Hydropool's Great Options & Upgrades.

Shell Options

Standard Acrylic Colors*

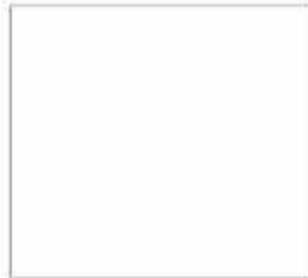

Your Hydropool Self-Cleaning Hot Tub is available in these colors.

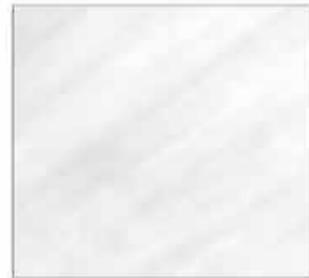

Alpine Mist

Quartz Mist

Pure White

Silver Marble

Black Opal

Midnight Canyon

Tuscan Sun

Sky Blue

Cabinet Option

Everlast Cabinetry with Removable Panels

Hydropool Self-Cleaning Hot Tubs come in our maintenance-free Everlast finish.

This premium quality cabinetry is installed onto a sturdy wood substructure for the ultimate in durability and is embossed for the most realistic look possible. In the unlikely event that you require access to the hot tub plumbing or equipment, all four panels are removable for easy service access.

Choose from these finishes...

Black Cherry
(Premium Upgrade)

Midnight

Driftwood

Please Note: the Self-Cleaning Hot Tub 970 Model is only available in Alpine Mist, Quartz Mist, Pure White and Silver Marble Acrylic Colors.

*Hot tub shell and cabinet colors may not be exactly as shown due to printing.

1

Personalize Your Hydropool Self-Cleaning Hot Tub With These Great Options and Upgrades.

3

Hydrotherapy Options

1) HydroFlex Air Therapy

This hydrotherapy system is designed to provide you an enhanced moment where up to 10,000 perfectly aimed heated air bubbles apply ideal pressure to provide you with an all encompassing therapeutic massage.

2) HydroSequence Massage

The HydroSequence Massage is a seat with 8 jets that pulsate in a random pattern allowing the user to experience a hydrotherapy massage like no other.

Aromatherapy Options

3) DreamScents on Demand

As part of your total sensory hot tub experience, our state-of-the-art technology provides you the chance to change the mood or enhance your hot tub experience at the push of a button. It injects just the right amount of aromatherapy Essential Oils into your Self-Cleaning Hot Tub.*

4) iCommand System WORLD EDITION

The Smart Phone App that is designed as a wireless hot tub control which allows you to pick the water care settings that fits your schedule, adjust filtration and temperature settings and create the ideal hot tub experience from anywhere in the world.

4

5) EZ Ultra PureOzone System

The system is designed so that when ozone a highly effective oxidizer is mixed with water it assists in removing of unwanted contaminants from your hot tub water.

5

6) Industry Leading Guarantee

Hydropool Hot Tubs are built to stand the test of time and offer an Industry Leading Guarantee package. *For details on coverage inquire with your local Hydropool Retailer.*

Lighting Option

7) Deluxe LED & Garden FX

Enjoy the added convenience and reliability Premium LED Lighting featuring bright LED lights that sequence through blue, green and red colorations or can stay on your favorite of the three. Including two exterior cabinet sconces to illuminate the step area and four additional accent lights that beautify the perimeter of the hot tub.

7

8) Southern Lights (Cabinet Corner Lighting Feature)

Take the ambiance of your hot tub experience to the next level with this lighting option. The addition of Southern Lights LED Corner Lighting System to your hot tub illuminates the surroundings and detail of the spa's exterior. Making your hot tub the focal point of any backyard. The LED lights can be locked on one of three available colors; blue, green or red.

8

*The Essential Oils are available in a wide variety of pleasing and stimulating scents from your Hydropool Retailer.

Available Option Packages **1 2 3 4**

1 Tranquility Package

Two Premium HydroFall Pillows

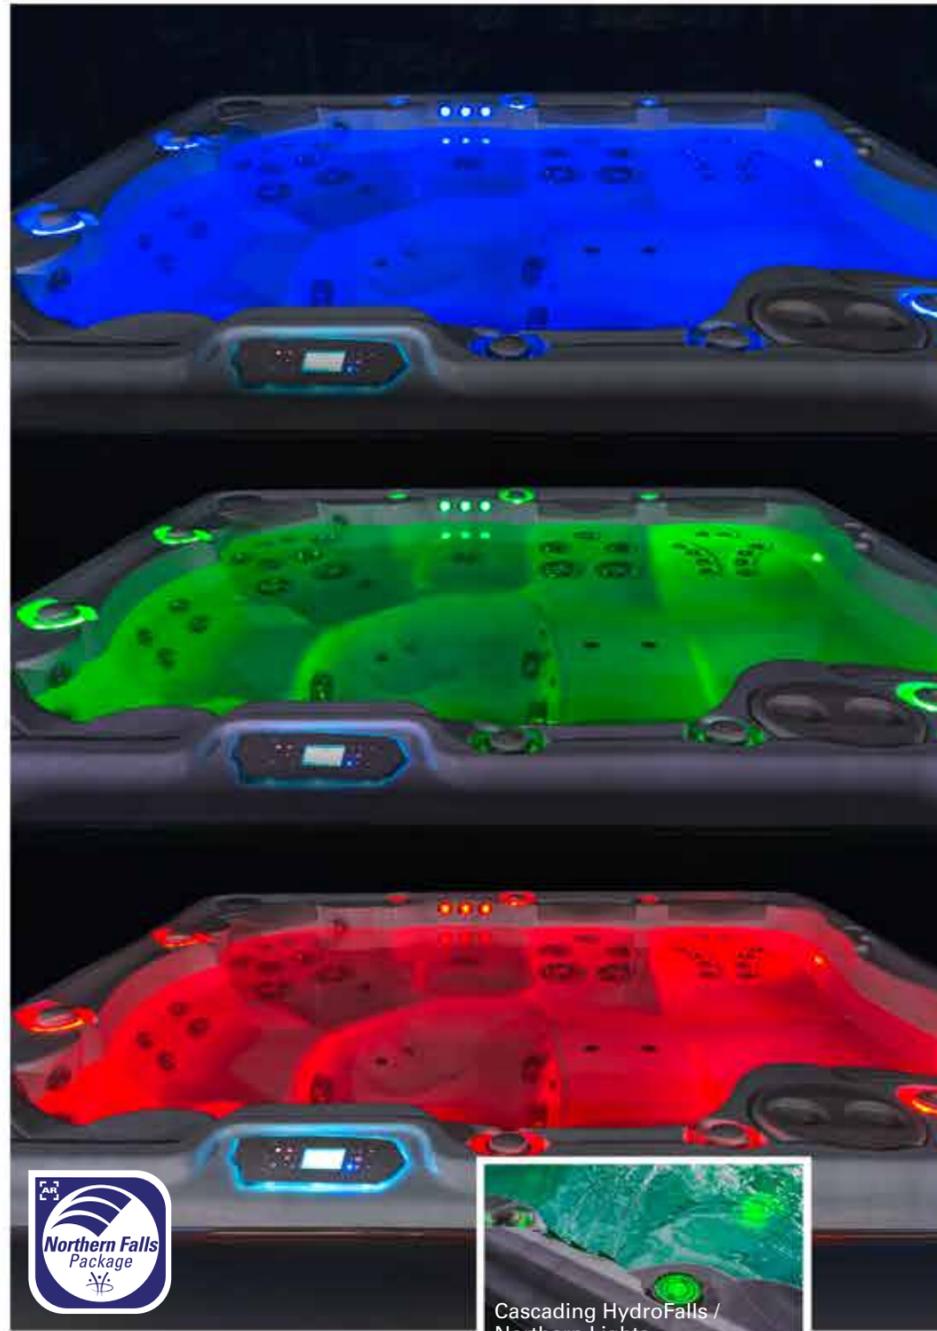

The adjustable "Waterfall Jet" helps release the body's natural endorphins that act as a natural pain suppressor by helping to relieve stress, headaches and pain.

Deluxe LED Lighting

Enjoy the added convenience and reliability of Hydromax's Premium LED Lighting featuring bright LED lights that sequence through blue, green and red.

HydroFall Pillow with Deluxe LED Lighting

2 Northern Falls Package

Northern Lights

Strategically placed LED lights provide lighting that illuminates all of the top mounted control valves; brilliantly colored and sequence through a range of colors when turned on and can be locked on to one color.

Cascading HydroFalls / Northern Lights

Cascading HydroFalls

The HydroFalls package includes three Laminar fountain jets that are illuminated with brilliant color sequencing LED lights.

4 Hydrotherapy Package

3 Chromotherapy Package

Northern Lights

LED lights strategically placed to illuminate all of the top mounted control valves; brilliantly colored and sequence through a range of colors when turned on and can be locked on to one color.

Deluxe LED & Garden FX

Premium Lighting featuring bright LED lights that sequences through different colors and can be locked on to one color. The Garden FX lighting with two cabinet sconces to illuminate the step area and 4 additional accent lights.

Dream Scents

Take your hot tub experience to the next level with this aromatherapy feature to enhance your massage even more.

HydroFlex Air Therapy System

10,000 perfectly aimed heated air bubbles apply ideal pressure to provide you with an truly all complete therapeutic massage.

9

Audio Options

9) HydroSurround Sound System

Hydrosurround's Surround Sound includes a waterproof MP3/Bluetooth Stereo integrated into the topside control. Proprietary circuits automatically prevent distortion at high volumes. With 180 watts total power, a custom EQ optimizes sound and automatically adjusts the various frequencies. Also includes a powerful 100W amplifier, 2 marine grade premium 3-way pop-up HydroSurround Sound speakers and a powerful sub woofer. Use Bluetooth feature to sync with your device.

10

Cover Options

10) HydroWise XL Thermal Shield Cover

This patented ultra energy efficient 5" cover features a silver reflective lining, a bumper seal through the centre fold and around the outside perimeter to ensure that the heat stays in and the cold stays out.

There is simply not a better cover.

CoverLifter Options

All of our cover lifters are made in North America. Constructed of corrosion resistant aluminum brackets and have galvanized arms with comfort foam grips. All our coverlifters are covered by a Limited Lifetime Manufacturer's Warranty.

11

11) Standard Cover Remover

Designed to work as a high or mid-mount, and can be mounted to the side of the hot tub or can be deck mounted if the hot tub is set into the deck surround. For ease of installation this coverlifter is designed with patented sliding brackets.

12) UnderMount Cover Remover

Designed to work as a deck or surface mount, and can be installed using the weight of the hot tub to hold it in place. No screws, no drilling into your hot tub cabinet is required. This coverlifter also is designed with patented sliding brackets.

12

13) Hydraulic Cover Remover Plus

Lifts your hot tub cover with greater ease thanks to 80lb dual gas shocks and is designed to mount into your hot tubs cabinet. This coverlifter can also be used on hot tubs that are in-ground installations.

Step Option

14) Two Tier Universal Step

This option, a two tier step makes entering and exiting your hot tub safe and easy. These steps are available in matching Midnight, Driftwood or Espresso color finishes.

13

Power Option

15) 40, 50 Or 60 amp GFCI With Sub-Panel Box*

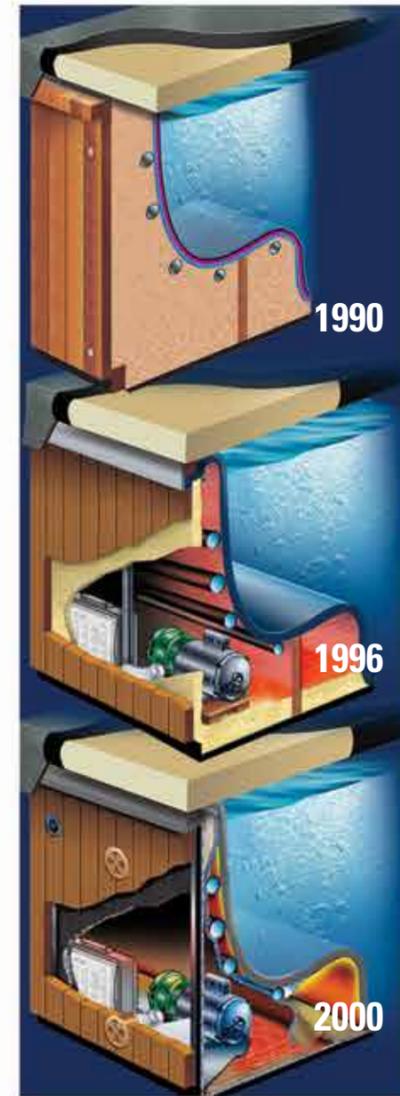

For your convenience a GFCI breaker can be conveniently installed into the included custom sub panel. * Not available in Europe.

14

The Evolution Of The Hydropool Hot Tub.

The Energy Efficiency Evolution...

1990, No Foam

1992, No Foam Changes To Full Foam Why?

- Better insulation.
- Supported pipes.

1996, The Use Of Perimeter Foam Why?

- Water will take the path of least resistance so if there was a leak in the plumbing the water could appear on the other side.
- It is difficult to service because there is no access to plumbing without a full dig out.
- No access plumbing without compromising the insulation or structural integrity.
- Each motor creates 1.5 kw of heat and all of that heat was being expelled from the hot tub as opposed to being used to help heat the water.

2000, Perimeter Foam Changes To Hydrowise Thermal Shield Why?

- Causes leaks due to plumbing support issues.
- Gaps in panels allow heat to escape.
- The Motor needs to breathe, and without vents it overheats and causes the pumps to fail.

2005 - Present, Hydrowise Thermal Shield Technology Why?

- Polyfilm barrier supports the plumbing and provides easy access to service.
- Uses the waste heat of the motor, shell and pipes to heat the hot tub.
- EcoHeat exchange Venting to expel the heat in the summer and trap the heat in the winter.

The Self-Clean Evolution...

1980

1980, Grate Style Skimmer / Gravity Style Drain

1985, Grate Style Skimmer Changes To Suction Side Filter / Skimmer

Why?

- Suction was located 6" below the surface level of the water, hence it skimmed nothing off the surface.
- Combining the two saved money and allowed the water to be skimmed more efficiently.

1985

1989, Suction Side Filter / Skimmer Changes To High Flow Skimmer & Pressure Side Filter Why?

- ONLY 50% of the water was being filtered.
- Filter is designed to clog. Pumps and heater were being starved of water.
- Filter was exposed to the air, hence there was a greater chance of odors and it was in the sight lines of the bather.

1989

1993

1993, Gravity Drain Changes To Floor Vacuum Why?

- Pulled water from 2" - 4" above the bottom of the hot tub so you needed a vacuum to remove dirt from the floor.
- You had to bail the bottom 6" of water by hand when draining the hot tub.
- Did not filter any of the water

2000

2000 - Present, Self-Cleaning System Why?

- Filter's 100% of the water every 15 minutes.
- Skims the surface of any water.
- Vacuums the floor.
- Results in clean clear safe water.

Time For Fun.

Hydropool Serenity Hot Tubs at a Glance.

* Specification for North American Serenity Hot Tub

Serenity Hot Tubs Built To Last From The Ground Up.

Our innovation never stops and to that end Hydropool introduces an all new redesigned cabinet and frame. The new Unibody Frame cradles the all new Edgewater Shell and it all sits on a Poly Insulated floor sealing in the acrylic shell, cabinet and frame. Thus creating a completely sealed system that keeps the heat in and the cold out in the winter. In the summer heat can be released and regulated by the Eco heat Exchange fully adjustable venting.

1) Polymer Insulated Floor:

- Keeps the warmth in and everything else out.
- Insulated floor locks in the ambient heat from the pumps.

2) Unibody Frame: THE STRONGEST FRAME AVAILABLE

- Specifically engineered to hold the weight of the water while adjusting to the heating and cooling that comes with summers and winters.

3) Edgewater Shell: BUILT LIKE THE HULL OF A BOAT THAT IS COMPLETELY WATERPROOF

- Polyester and vinylester resin combined with fiber-glass to add strength.
- Strongest shell in the industry.

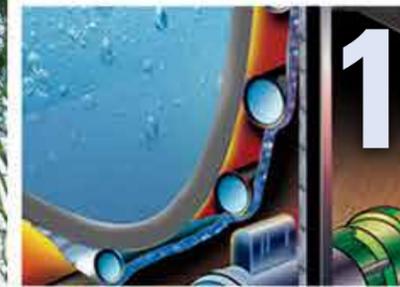

Introducing the New WeatherSeal Insulation System.

Our innovative HydroWise Thermal Shield Energy Efficient Insulation and superior WeatherSeal Cabinetry work in combination with our HydroWise Hard Cover to keep the heat in and the cold out. Combine this with the fact that our hot tubs are engineered to be the most energy efficient in the world, providing 100°F / 37°C... **for just pennies a day.**

1) Poly Film Barrier:

- Supports plumbing and weight of water, minimizes vibration.

2) HydroWise Thermal Blankets:

- Wraps the plumbing and floor, reflecting radiant heat back into the hot tub, creating the first thermal barrier.

3) 2lb Closed Cell Foam:

- Seals the lip of the tub to prevent heat loss; insulates floor of hot tub.

4) WeatherSeal Cabinet:

- Locks in the waste heat given off by pumps and heater.
- Reflecting radiant heat inside cabinetry of the hot tub.
- Panels are easily removed for access.

5) Hybrid Heat Advantage

- The combination of insulation materials allows our WeatherSeal Insulation System to capture the radiant heat from the plumbing and equipment, significantly reducing energy consumption.

Introducing the Serenity Hot Tub ClearSpring Filtration System

This completely new system for Serenity Hot Tubs is a three stage filtration system that keeps water cleaner and clearer. The first stage is the Ultra Flow Grill with its Catch Barrier preventing debris from re-entering the hot tub. The second stage skimmer net traps large debris before reaching the filter cartridge. The second stage skimmer net traps large debris before reaching the filter cartridge.

The new Wave filter cartridge with its much larger surface area filters more water than ever before and is made out of microfiber with a dense inner core that traps the smallest particles and holds them.

Clean and healthy spa water is the foundation of all Serenity Hot Tubs so that you can enjoy the cleanest water with the easiest system to operate and maintain your Serenity Hot Tubs performance.

1) Ultra Flow Grill:

- Allows maximum flow of water, quickly removing debris from the hot tub water.
- Catch Barrier prevents debris from re-entering the hot tub.

2) Ultra Flow Skimmer Net

- Eliminates the need to skim the surface.
- First Line of defense.
- Catches any debris too large for filter to catch.

3) Wave Filter:

- Unique wave design maximizes the surface area and captures debris more efficiently.
- Easy access, yet hidden from eyesight.

4) Evergreen Pump

- Filters 87 US Gallons of spa water per minute.
- Energy efficient Design.

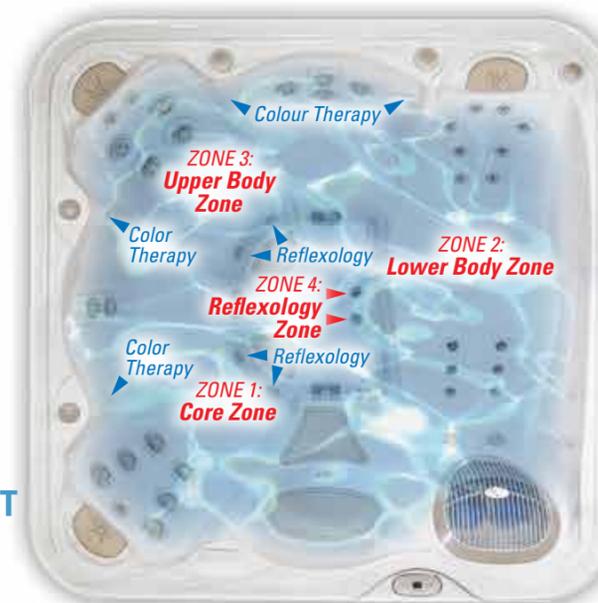

HYDROPOOL
exclusive feature

Science Of Immersion In A Serenity Hot Tub.

There Are Eight Reasons To Buy A Serenity Hot Tub...

Through our understanding of Zone Hydrotherapy and ergonomics of the human body HydroPOOL has taken the science of immersion to the next level. This constant innovation has created a line of hot tubs that allows them to interact with the human body in the most natural and effective way possible with the introduction of Zone Therapy.

ZONE THERAPY: EACH ZONE DESIGNED TO MASSAGE A SPECIFIC PART OF YOUR BODY:

ZONE 1: CORE ZONE ACTIVATION OF THE PARAVERTEBRAL MUSCLES

- Vertebral fatigue contributes to headaches.
- Release tension in the Dorsal muscles.

ZONE 2: UPPER BACK ZONE ACTIVATION OF LEG & LUMBAR MUSCLES

- Promotes improved circulation in the lower part of the body.
- Allows for venous return and lighten legs.

ZONE 3: LOWER BACK ZONE ACTIVATION OF UPPER BACK, NECK & SHOULDER MUSCLES

- Eliminate tension in Trapezoid muscles and neck.
- Releases tensions in Solar Plexus area.

ZONE 4: REFLEXOLOGY ACTIVATION OF FOOT ARCH MUSCLES

- Deeply massage the small venous areas in your foot arch.
- Your feet take the brunt of most sports.

HydroPOOL Zone Therapy is designed around you and your usage of the hot tub to help you benefit from a general sense of well-being. We are all unique individuals genetically and with varying lifestyles that all play a role in defining our sensitivity to a release of various tensions.

EACH ZONE HAS FOUR FEATURES, DESIGNED TO MAXIMIZE YOUR HYDROTHERAPY:

1) TYPE OF JETS

- The type of jet is crucial to a proper massage.
- Our E55 jet is designed purposely for a deep tissue massage and our E40 Jet is designed for a gentle massage.

2) JET PLACEMENT

- Our hydrotherapy jets are specifically designed for each zone so that the superior benefits of hydrotherapy are achieved.
- Different jet patterns are designed to work different muscle groups.

3) SEATING... DESIGNED AROUND YOU

- Designed to work with your body's natural structure and functions to provide maximum comfort and functionality.
- Our ergonomic seats support the skeletal structure so that the muscular system does not have to; it removes stress from muscles and joints so that the body relaxes.

4) DURATION IN SEAT

- The last component of Zone Therapy is the duration of time that a person spends in each seat (Zone) of the hot tub.
- Duration in seat combined with the sequence of seats is critical to the performance of the Zone Therapy.

What Comes Standard With Your Hydropool Serenity Hot Tub.

1) AquaBlade WaterFall Feature

Consists of two pop-up waterfall jets that create a beautiful cascading blade of water on either side of the filtration grill. These also light-up in conjunction with the Moon Lighting feature and sequence through blue, green and red colorations or can stay on your favorite color.

2) Moon Lighting (Cabinet Corner Lighting Feature)

This LED Corner Lighting System illuminates the surroundings and detail of the spa's exterior. Enjoy the added convenience and reliability of premium LED Lighting featuring bright LED lights that sequence through blue, green and red colorations or can stay on your favorite color. The interior LED Lights illuminate the seating area and also sequence or be locked on to one of three same colors.

3) WeatherSeal Cabinet

This all new cabinet design is the next level in energy efficiency with its easy removepanels for convenient access to the hot tubs interior. Available in two new colors. (Not available on Serenity 4L and 5L Models)

Personalize Your Hydropool Serenity Hot Tub With Hydropool's Great Options

4) iCommand System WORLD EDITION

The Smart Phone App that is designed as a wireless hot tub control which allows you to change water care settings, adjust filtration and temperature from wherever you are.

5) EZ Ultra PureOzone System

The system is designed so that when ozone a highly effective oxidizer is mixed with water it assists in removing of unwanted contaminants from your hot tub water.

6) Hydropool PureWater System

For clean and safe every time is important. The PureWater System is one the most efficient water purification systems available. (Refer to Page 17 for more details)

7) HydroFlex Air Therapy System

This System is designed to offer you a privileged moment where up to 10,000 perfectly aimed air bubbles apply ideal pressure to provide you with an all encompassing therapeutic massage.

8) Two Tier Universal Step

This option, a two tier step makes entering and exiting your hot tub safe and easy. These steps are available in matching Midnight, Driftwood or Espresso color finishes.

9) Standard Acrylic Colors*

Your Hydropool Serenity Hot Tub is available in a wide range of colors. Please note that the Serenity Special Edition Models 4L and 5L only come in Silver Marble Acrylic finish.

A GFCI breaker can be conveniently installed into the included custom sub panel. For the 4L and 5L Models a GFCI including Subpanel with a 15 Amp Plug is included. * Not available in Europe.

* +/- tolerance of 1/4" † Specification for North American Serenity HotTub ** Specification based on North American 220V.

The Company Behind Every Hydropool Hot Tub.

Hydropool originated in 1980 and has become one of the largest hot tub and swim spa retailers and manufacturers in the world. Whether it's our products, knowledgeable advice, or after sales service and support, our team must give our customers not just great service but ...

the best experience in the hot tub industry.

1) A Company Built On Family Values

Our Goal... is to be the pre-eminent manufacturer and developer of hot tubs on the planet. We have the very best people in the industry who have the passion, vision and knowledge to deliver customer satisfaction every day.

2) Sold In Over 60 Countries Worldwide

We meet or exceed all international standards. Our unique Self-Cleaning and Triple Thermal Shield System enable us to meet the rigorous energy efficiency standards set out by the state of California and are the World's First California Approved Hot Tub and Swim Spa manufacturer.

3) Recognized Worldwide For Excellence & Innovation

For 40 years Hydropool Hot Tubs and Swim Spas have achieved unsurpassed recognition worldwide by setting industry standards for hot tub and swim spa design and innovation. We have been awarded the most certifications and honours in the hot tub industry.

4) Industry Leading Guarantee

Hydropool Hot Tubs are built to stand the test of time and offer an Industry Leading Guarantee package. For details on coverage inquire with your local Hydropool Retailer.

5) Our Number One Goal Is Customer Satisfaction

A Company you can trust. We stand behind every Hydropool hot tub and swim spa manufactured since 1980, we are a 40 year old organization dedicated to excellence in customer service. Our customer satisfaction has reached such an incredible level that referrals generate over 25% of our business every year.

6) Number One Choice of Professional Sports Teams Worldwide

Including teams such as:

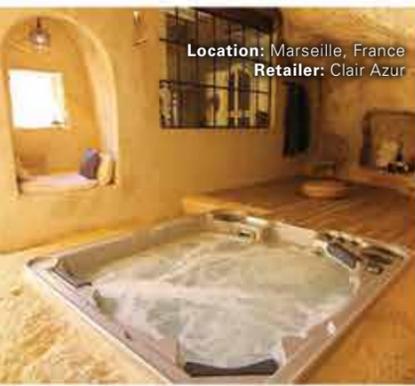

- The Toronto Maple Leafs and New York Rangers of the NHL.
- The Toronto Raptors and New York Knicks of the NBA.
